PROFESSIONAL EXPERIENCE

New York City Law Department (25 hours per week) | Legal Clerk/Intern **New York, NY**
July 2022 – August 2022

- Maintained confidential legal files and ensured accurate organization of case documentation.
- Prepared legal and administrative documents while maintaining exceptional attention to detail.
- Entered and verified information across electronic databases and internal records.
- Organized paper and electronic files to support attorneys in a high-volume legal office.
- Assisted with document filing, recordkeeping, and administrative support.
- Communicated professionally with attorneys, staff, and applicants regarding legal documentation and administrative matters.

SPIN Encyclopedia LLC | Educational Researcher (25 hours per week) **Remote, New York, NY**
July 2026 - Present

- Conducted detailed research and prepared written reports requiring analytical thinking and precision.
- Organized electronic records and maintained accurate documentation.
- Collaborated with cross-functional teams to complete projects within deadlines.

Invest STL | Pershing Fellow (40 hours per week) **St. Louis, MO**
June 2025 - August 2025

- Coordinated emergency tornado relief efforts that distributed \$3,000 grants to impacted households.
- Partnered with community organizations to identify eligible families and document program outcomes.
- Maintained accurate records and prepared reports supporting equitable fund distribution.

Greater Hood Memorial | Marketing Intern & Volunteer **New York, NY**
July 2023 – August 2023

- Maintained electronic databases and organizational records.
- Processed and organized contact information for more than 100 community partners.
- Assisted with administrative correspondence and documentation.
- Supported daily office operations through accurate record management.

Anote | Machine Learning Intern (5 hours per week) **Remote**
August 2024 - May 2025

- Collaborated with founders to design a software development kit (SDK) for training, predicting, and evaluating models for NLP tasks such as **Text Classification, Named Entity Recognition, and Question Answering**.
- developed a multimodal data processing system using **Python**, which integrates and transforms diverse data types—audio, image, text, and video—into unified text-based representations.
- Implemented a **Retrieval-Augmented Generation (RAG) pipeline**, leveraging models such as **Whisper, OpenCV, TorchVision, and Transformers** to capture, process, and query multimodal data for generating insightful responses.

Microsoft & Cyborg Mobile(40 hours per week) | SWE and PM New Technologist Intern **Redmond, WA**
June 2024 - August 2024

- Collaborated on a team of five to develop a machine learning model using **Microsoft Azure AI Custom Text Classification** to classify music into different emotions, achieving a 90% accuracy rate. This model was integrated into the application to help professionals understand their patients' mental state through their media choices.
- Engineered the front-end using **React.js, HTML, and CSS**, ensuring a responsive and user-friendly interface. Implemented the back-end using **Python, Spotify API and Azure AI Custom Text Classification**.

Bethune-Height Changemaker Pathways(5 hours per week) | Changemaker Apprentice **Hybrid**
August 2024 - May 2025

UGONNA HELEN AGWU

+1 (347)-885-3703 | a.ugonna@wustl.edu | <https://www.linkedin.com/in/ugonna-agwu> | <https://github.com/ugonnaagwu>

- Selected for a competitive career accelerator program, focused on advancing careers of Black women in various fields through mentorship, community building, and professional development.
- Currently gaining insights into **AI, tech innovation**, and legal frameworks within the tech industry from industry leaders at Microsoft and Amazon.
- Participated in 10 virtual Change Labs, two multi-day virtual conferences, and two in-person events, receiving training on critical competencies and \$5,000 in funding to support career advancement.

America Reads Tutor

St. Louis, MO

February 2024 – May 2024

- Deliver individualized reading and mathematics instruction to K–6 students, supporting literacy, numeracy, and overall academic achievement.
- Tailor instructional approaches to meet students' unique learning needs and promote equitable educational outcomes.
- Track student progress and assess learning needs to inform instructional decisions and support continuous academic improvement.
- Collaborate with educators and program staff to help students build foundational skills essential for long-term educational success.

Accenture & Girls Who Code(5 hours per week) | Technical Consultant Apprentice

New York, NY

May 2024 - June 2024

- Leveraged **Mixed Reality (MR) and Extended Reality (XR) technologies** to develop a virtual environment allowing surgeons to interact with 3D anatomical models, plan surgeries, and use holographic guides during procedures. This approach significantly improved precision, reduced preparation time, and minimized surgical errors.
- Actively engaged in workshops covering Growth Mindset, Transferable Skills for an Evolving Industry, Navigating New Projects and Challenges, Unique Technical Roles in Consulting, and Mock Interviews and Final Presentations.

LEADERSHIP

President & Founder of Girls Who Code College Loop at Washington University in St.Louis
